Good morning,

It's me again. I am still continuing to experience your father's 'long reach' right up to our door and into our home each and every day.

As I have mentioned, he is utilizing his connections with Elon Musk to implement a large (very intrusive) spying operation over our life, and he is aiming that spying device at our most intimate moments.

Specifically, your father's ongoing spying operation is attempting to interfere with the unity between me and my wife.

Seriously, what could be more satanic and evil than intentionally interfering with the loving relationship between a husband and a wife?

Anyway, for those of you that are innocent from this ongoing evil spying operation being conducted by the 'forefathers' of the Trump family, I wish you a wonderful day.

To those of you that are participating in this criminal enterprise, I implore you to reconsider the direction that you have taken in your life.

Kindest regards,

Chris Noel Carlin

I really am serious.

Your dad is literally stealing my work to use for himself and intentionally hiding my presence so that no one can know who I am.

He seems mentally ill and in need of constant reassurance. If I didn't know how many people he was harming, I would seriously feel sorry for him.

Think about what he is showing to us: He finds someone smarter than him, he captures that person in a spying prison, then steals their work and pretends that it is him doing it.

Your old man is mentally ill. Those are serious signs of a defective mental disorder. He needs help. He definitely should not be the President of the USA.

Unfortunately though, he is causing harm to many people - not just me. Please talk with him and help him to find a better path forward.

Good afternoon,

I am writing to your office again to remind you that your namesake is embedding himself inside of other people's

homes in order to exercise a possession over their lives - as if he is somehow entitled to hold on to them as his own personal property.

Is Donald Trump treating his employees in this exact same manner? I am truly beginning to become concerned about the people that are operating near Donald Trump because of the manner and way in which he has attempted to conduct 'business' with me personally. Is Donald Trump holding his employees as slaves?

Apparently, Donald is spying without reservation on anyone he chooses and has no sense of a moral, legal, or any other obligation to not indulge every wish that he, and his team, have to know anything they want about his targets' lives.

Literally, Donald Trump is inhabiting our home with a spying presence and (hundreds, literally hundreds) of 'drivers' that he uses to spiral cars past our home day and night, night and day, in an attempt to interact with me.

Listen: I DON'T WANT ANYTHING TO DO WITH YOUR PERVERTED, PEEPING-TOM, OLD GRANDPA!

Please, do your family name and your business name a favor and rein in his illegal spying operation. You all should be embarrassed to be associated with him in any way.

I am. I am absolutely embarrassed to have ever advocated Donald Trump for President of the United States to my friends, family, and community.

Donald has proven himself to have no self-control and - honestly - appears to be indulging in a self-conscious obsessive compulsive disorder to 'destroy' his enemies.

Ladies, and gentlemen of the Trump Organization: You must help the country and world to be freed from Donald's insanity immediately.

Please help us. We need people like you all, on the inside, to help convince him that he has gone way too far in his quest to become - whatever it is that he envisions himself to be.

Help Donald. Help the Trump Organization, and Help the World.

Talk to the old man about boundaries and the proper way to conduct himself in our modern world.

He seems to be living in 1940's Germany instead of the United States of America in 2025.

Sincerely,

Chris Noel Carlin,
Horrible and Embarrassed Former Supporter, and
Former Republican Party Precinct Chair of
Bexar County Precinct #2053.

Good afternoon,

I have written to the Trump Organization before and I am attempting again to find some form of assistance for what has become an ongoing intrusion into my homelife by your old man, Donald Trump.

Apparently, he has had no boundaries ever placed upon his lifestyle because he is unable to stop himself from sending a team of people to interact with our home in a negative way - every single day of the week for several years now.

You and I both know what Donald Trump is doing now and it is a serious crime against us.

For the sake of the reputation of your organization and family name, please convince Donald to leave us alone.

We have nothing for him. We want nothing to do with him. We are former supporters that have completely stopped supporting his political and personal causes since learning about his illegal spying and extortion

operations.

'Trump Derangement Syndrome' is a real syndrome that Donald Trump himself is suffering from as he is truly a deranged stalker over our life. He can pretend all that he wants that other people are just so 'obsessed' with him that we cannot stop thinking about him and blaming him all that he wants - but we all know the truth: DONALD TRUMP IS FORCEFULLY DRIVING MESSAGES INTO PEOPLES' LIVES - WITHOUT INVITATION, WITHOUT MERCY, AND WITHOUT ANY SENSE OF RESERVATION TO LAW OR ANY HIGHER POWER THAN HIS OWN PERSONAL FEELINGS.

Trump Family: Your old man is suffering from a mental illness that is causing him to harm other people. Please help him. Please get him to stop spying on my life and please stop him from attempting to interact with my home in a threatening and harmful way.

Thank you for your attention to this important matter.

Kindest regards,

Chris Noel Carlin
